0A4 Johnson City Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Johnson City Airport

Serving the City of Johnson City and surrounding areas of Washington County in northeast Tennessee, Johnson City Airport (0A4) provides general aviation access within a region characterized by healthcare facilities, educational institutions, and outdoor recreation opportunities. The airport functions as a local aviation resource for recreational flying, business travel, and general aviation activity in an area where air access complements regional transportation options.

Johnson City Airport is a publicly owned, public-use general aviation facility featuring a 3,000-foot runway. This runway length supports light general aviation aircraft and recreational aviation operations, allowing the airport to accommodate local flying activity, pilot training, and short-distance travel while providing convenient access to the surrounding region.

Doe Mountain Aviation Services, LLC maintains an on-airport presence as the airport's fixed-base operator (FBO), providing support services for based and transient aircraft. These services contribute to routine airport activity and help maintain reliable access for general aviation users throughout the area.

To better understand the geographic reach of Johnson City Airport, the map below shows a selection of flights that operated both into and out of the airport.
