# 2M2 Lawrenceburg-Lawrence County Airport

**Aviation Moves Tennessee**

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

## *About Lawrenceburg-Lawrence County Airport*

Serving the City of Lawrenceburg and surrounding areas of Lawrence County in southern Middle Tennessee, Lawrenceburg–Lawrence County Airport (2M2) provides general aviation access within a region characterized by manufacturing, agriculture, and local industry. The airport functions as a local aviation resource for business travel, recreational flying, and general aviation activity where air transportation complements regional transportation options.

Lawrenceburg–Lawrence County Airport is a publicly owned, public-use general aviation facility featuring a 5,003-foot runway. This runway length supports a variety of general aviation aircraft, including business aircraft and recreational aviation operations, allowing the airport to accommodate local flying activity, corporate travel, and transient aircraft while providing access to the surrounding region.

Go Vertical Aviation maintains an on-airport presence, providing aircraft maintenance services that support both based and visiting aircraft. Local industries and businesses also utilize the airport for business travel and transportation needs, reinforcing the airport's role as a transportation asset for Lawrence County.

To better understand the geographic reach of Lawrenceburg–Lawrence County Airport, the map below shows a selection of flights that operated both into and out of the airport.
