3A2 New Tazewell Municipal Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About New Tazewell Municipal Airport

Serving the Town of New Tazewell and surrounding areas of Claiborne County in northeast Tennessee, New Tazewell Municipal Airport (3A2) provides general aviation access within a largely rural area characterized by small communities, open land, and regional business activity. The airport functions as a local aviation facility where air transportation complements surface travel and supports both aviation services and business use.

New Tazewell Municipal Airport is a publicly owned, public-use general aviation airport featuring a 5,208-foot runway. The runway length allows the airport to accommodate a variety of general aviation aircraft, including business aircraft and training operations, providing flexibility for both based and visiting users while enhancing regional accessibility.

Several aviation-related businesses operate directly on-airport. A flight school maintains an on-airport presence, providing flight training and pilot instruction, while OPT Aviation Maintenance provides aircraft maintenance and repair services. In addition to on-airport activity, a local commercial bank utilizes the airport to support executive and business travel.

To better understand the geographic reach of New Tazewell Municipal Airport, the map below shows a selection of flights that operated both into and out of the airport.
