50M Puckett Field

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Puckett Field

Serving the City of Eagleville and surrounding areas of Bedford County in Middle Tennessee, Puckett Field (50M) provides general aviation access within a largely rural area characterized by agricultural land, open space, and small communities. The airport serves as a local aviation resource for recreational flying and personal transportation while providing air access in an area where aviation complements regional roadway connections.

Puckett Field is a privately owned, public-use general aviation facility featuring a 2,200-foot turf runway. The runway accommodates light general aviation aircraft and supports activities such as recreational flying, pilot proficiency training, and personal aviation use. Its turf surface and relatively short runway length make the airport particularly well suited for light aircraft operations and community-based aviation activity.

The airport supports a variety of general aviation operations and provides a convenient facility for local pilots and visiting aircraft. Its location near Eagleville helps maintain aviation accessibility for residents and visitors while supporting continued general aviation activity in Bedford County.

To better understand the geographic reach of Puckett Field, the map below shows a selection of flights that operated both into and out of the airport.
