BGF Winchester Municipal Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Winchester Municipal Airport

Serving the City of Winchester and surrounding communities in Franklin County, southern Middle Tennessee, Winchester Municipal Airport (BGF) provides general aviation access within a region characterized by small communities, manufacturing activity, and regional healthcare and business services. The airport functions as a local aviation gateway supporting business travel, emergency medical operations, and general aviation activity where air transportation complements surface travel.

Winchester Municipal Airport is a publicly owned, public-use general aviation airport featuring a 5,002-foot paved runway. The runway length supports a variety of general aviation aircraft, including business aircraft and specialized aviation operations, allowing the airport to accommodate both based and visiting users while enhancing regional accessibility.

Several aviation-related businesses operate directly on-airport. LifeForce/Med-Trans maintains an on-airport presence, providing helicopter air-ambulance services that support emergency medical transport throughout the region. In addition, Thom Duncan Avionics operates on-airport, providing aircraft and avionics sales and related aviation services that support general aviation activity.

To better understand the geographic reach of Winchester Municipal Airport, the map below shows a selection of flights that operated both into and out of the airport.
