M01 General Dewitt Spain

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About General Dewitt Spain

Providing service to the Memphis area along the east bank of the Mississippi River in Shelby County, General DeWitt Spain Airport (M01) provides general aviation access within an urban environment influenced by riverfront development, industrial activity, and nearby population centers. The airport offers a centrally located aviation option that supports local flying activity and recreational aviation within the Memphis metropolitan area.

General DeWitt Spain Airport is a publicly owned, public-use general aviation facility featuring a 3,800-foot runway. The runway length supports light general aviation aircraft and training operations, making the airport well suited for recreational flying, pilot instruction, and short-distance general aviation travel.

An aviation-related business operates directly on-airport. Flight Time Builders maintains an on-airport presence, providing aircraft rental services that support pilot training, time building, and recreational flying.

To better understand the geographic reach of General DeWitt Spain Airport, the map below shows a selection of flights that operated both into and out of the airport.
