M04 Covington Municipal Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Covington Municipal Airport

Located near the City of Covington in Tipton County, west Tennessee, Covington Municipal Airport (M04) serves a predominantly rural area characterized by agricultural land, open countryside, and small communities. The airport provides general aviation access in a region where aviation supports agricultural operations, light manufacturing, and business travel tied to the local economy.

Covington Municipal Airport is a publicly owned, public-use general aviation facility featuring a 5,004-foot runway. The runway is capable of accommodating a variety of general aviation aircraft and supports activities such as business aviation, agricultural aviation, and specialized flight operations while enhancing regional accessibility.

Several aviation-related tenants operate directly from the airport. EZ Jets maintains an on-airport presence, providing aviation-related manufacturing and repair services that support aircraft maintenance and specialized aviation needs. In addition, Anderson Flying Service operates as an aerial application business, conducting agricultural flight operations that support regional farming activity.

To better understand the geographic reach of Covington Municipal Airport, the map below shows a selection of flights that operated both into and out of the airport.
