M29 Hassell Field

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Hassell Field

Serving the City of Clifton and surrounding areas of Hardin County in southwest Tennessee, Hassell Field (M29) provides general aviation access to a region known for its agricultural activity, outdoor recreation, and small-town communities. The airport serves as a local transportation resource that provides convenient air access for residents, visitors, and businesses throughout the area.

Hassell Field is a publicly owned, public-use general aviation facility featuring a 4,200-foot runway. The runway accommodates a variety of light general aviation aircraft and supports activities such as personal flying, business transportation, flight instruction, and transient aviation operations. Its facilities provide flexibility for both local and visiting pilots while maintaining a community-focused aviation presence.

The airport contributes to regional connectivity by providing air access to Hardin County and nearby destinations along the Tennessee River corridor. Its location supports travel, recreation, and general aviation activity while helping maintain transportation options for residents and visitors throughout southwest Tennessee.

To better understand the geographic reach of Hassell Field, the map below shows a selection of flights that operated both into and out of the airport.
