MNV Monroe County Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Monroe County Airport

Serving the City of Madisonville and surrounding areas of Monroe County in East Tennessee, Monroe County Airport (MNV) provides general aviation access within a largely rural region characterized by small communities, agricultural activity, and outdoor recreation opportunities. The airport functions as a local aviation facility that supports business travel, aviation services, and general aviation activity where air transportation complements surface travel.

Monroe County Airport features a 3,643-foot runway that supports light general aviation aircraft, flight training activity, and recreational flying. The runway length and airfield facilities provide flexibility for both based and transient aircraft while supporting the aviation needs of the surrounding community.

Several aviation-related businesses operate directly on the airport. Mullins Aviation maintains an on-airport presence providing aviation services that support day-to-day airport operations and general aviation activity. In addition, Monroe County Flyers operates from the airport, contributing to local flying activity and promoting aviation within the region.

To better understand the geographic reach of Monroe County Airport, the map below shows a selection of flights that operated both into and out of the airport.
