NQA Millington-Memphis Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Millington-Memphis Airport

Serving the City of Millington and the greater Memphis metropolitan area in West Tennessee, Millington–Memphis Airport (NQA) provides aviation access within a region that includes military operations, aviation manufacturing, and workforce training. The airport functions as a major aviation facility supporting industrial activity, flight training, and governmental operations where air transportation complements highway and rail networks.

Millington–Memphis Airport is a publicly owned, public-use airport featuring an 8,000-foot paved runway capable of accommodating a wide range of aircraft, including large business jets, military aircraft, and specialized aviation operations. This runway length and airfield infrastructure position the airport as one of the most capable general aviation and reliever facilities in the region.

Several aviation-related organizations operate directly on-airport. AerSale, Inc. conducts aviation-related manufacturing, maintenance, and repair activities. In addition, Tennessee Flight Training provides pilot instruction and flight training services. The U.S. Navy and Civil Air Patrol also utilize the airport to support training and public-service missions.

To better understand the geographic reach of Millington–Memphis Airport, the map below shows a selection of flights that operated both into and out of the airport.
