UCY Everett-Stewart Regional Airport

Aviation Moves Tennessee

Tennessee's aviation system has 76 public-use airports that support a wide range of activities, from commercial airline travel to private aircraft operations. Aviation contributes approximately 9% of Tennessee's gross domestic product (GDP) and generates an estimated $53.8 billion in total economic impact across the state. To better understand how these airports support Tennessee's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division conducted an updated Aviation Economic Impact Study.

About Everett-Stewart Regional Airport

Serving as a general aviation facility for the City of Union City and surrounding areas of Obion County in northwest Tennessee, Everett–Stewart Regional Airport (UCY) provides air access within a largely rural region defined by open land, small communities, and agricultural activity. The airport functions as a key aviation resource for business travel, aviation services, and regional mobility in an area where air transportation complements surface travel options.

Everett–Stewart Regional Airport is a publicly owned, public-use general aviation facility featuring a paved runway capable of accommodating a variety of general aviation aircraft. The runway supports business aviation, agricultural aviation, and specialized operations, reinforcing the airport's role as a flexible aviation facility for the region.

Several aviation-related businesses operate directly on-airport. Full Stop Aviation maintains a presence providing aviation services for based and visiting aircraft. In addition, Russell Flying Service conducts agricultural flight operations. Rainey Flying Service and McGuire's Flying Service also utilize the airport to support agricultural aviation activity.

To better understand the geographic reach of Everett–Stewart Regional Airport, the map below shows a selection of flights that operated both into and out of the airport.
